REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

 The storage period is less than 12 months. Be sure to follow the s or less). If the storage period elapses, the soldering of the terminal electroc 						
\supset Do not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).						
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature does not exceed 150°C. 	difference between the solder temperature and chip temperature					
 Soldering corrections after mounting should be within the range of If overheated, a short circuit, performance deterioration, or lifespar 	-					
O When embedding a printed circuit board where a chip is mounted the overall distortion of the printed circuit board and partial distortion						
 Self heating (temperature increase) occurs when the power is turn design. 	ed ON, so the tolerance should be sufficient for the set thermal					
 Carefully lay out the coil for the circuit board design of the non-magr A malfunction may occur due to magnetic interference. 	netic shield type.					
○ Use a wrist band to discharge static electricity in your body through	h the grounding wire.					
\bigcirc Do not expose the products to magnets or magnetic fields.						
\bigcirc Do not use for a purpose outside of the contents regulated in the d	lelivery specifications.					
 The products listed on this catalog are intended for use in general equipment, home appliances, amusement equipment, computer execution equipment, industrial robots) under a normal operation and use contract products are not designed or warranted to meet the requirement quality require a more stringent level of safety or reliability, or whose society, person or property. If you intend to use the products in the applications listed below or set forth in the each catalog, please contact us. 	quipment, personal equipment, office equipment, measurement andition. ents of the applications listed below, whose performance and/or					
 Aerospace/Aviation equipment Transportation equipment (cars, electric trains, ships, etc.) Medical equipment Power-generation control equipment Atomic energy-related equipment Seabed equipment Transportation control equipment 	 (8) Public information-processing equipment (9) Military equipment (10) Electric heating apparatus, burning equipment (11) Disaster prevention/crime prevention equipment (12) Safety equipment (13) Other applications that are not considered general-purpose applications 					
When designing your equipment even for general-purpose application protection circuit/device or providing backup circuits in your equipmer						

⊘TDK

Product compatible with RoHS directive Halogen-free Compatible with lead-free solders

Multilayer Ferrite

Overview of MLF2012 Type

FEATURES

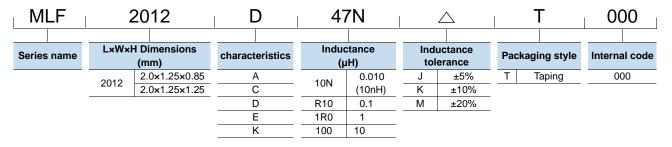

O The lineup includes a wide inductance range.

O Highly reliable monolithic structure with multilayer integration.

APPLICATION

Smart phones, tablet terminals, tuners, LCD-TVs, PDP-TVs, audio equipment, computers, signal processing for modules etc.

PART NUMBER CONSTRUCTION

OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

Ten			ure range*	Package quantity	Individual weight
Type Operating temperature		Storage temperature**			
		(° C)	(° C)	(pieces/reel)	(mg)
MLF2012	t=0.85	-55 to +125	-55 to +125	4,000	10
	t=1.25	-55 10 +125	-0010 +120	2,000	14

* In case the product's inductance is 15µH or higher, both Operating and Storage temperature ranges are -40 to +85°C.
** The Storage temperature range is for after the circuit board is mounted.

O RoHS Directive Compliant Product: See the following for more details.https://product.tdk.com/info/en/environment/rohs/index.html

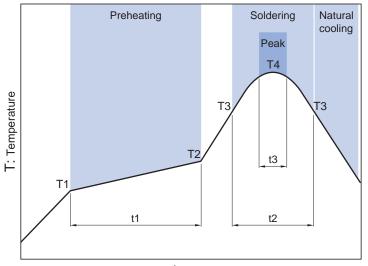

O Halogen-free: Indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.
