CIRCUIT BOARD HOLDER, STANDARD, WITH 2 ADJUSTABLE SUBDIVISIONS
utilizable size:
280 x 290

CIRCUIT BOARD HOLDER STANDARD, WITH TWO ADJUSTABLE SUBDIVISIONS
utilizable size
520 X 280

CIRCUIT BOARD HOLDER STANDARD , WITH TWO ADJUSTABLE SUBDIVISIONS
utilizable size
520 X 410

PCSA-1

with cover,
foam rubber
ESD safe

PCSA-2

with cover,
foam rubber
ESD safe

PCSA-4

with cover,
foam rubber
ESD safe

BS-PCSS1

Additional
splint,
adjustable

BS-PCSS2-4

Additional splint,
adjustable

CIRCUIT BOARD HOLDER - COMBINATIONS AND WORK SURFACE IN MM					
PCSA-1		PCSA-2		PCSA-4	
2		2		2	
0		0		0	
2		2		2	
1		1		1	
4		4		4	
1		1		1	
<p>FEATURE</p> <ul style="list-style-type: none"> - Circuit board holders of the PCSA series are the ideal tool for fitting circuit boards with components. The holder can easily be demounted in single parts and be reassembled in different combinations. - The standard models PCSA-1/2/4 are equipped with 1 fix middle bridge and 2 adjustable splints. Therefore two work areas can be created. - Any circuit board holders can be fit out with additional subdivisors (4 for PCSA-1/2/4 and 6 for PCSA-4). That way small circuit boards can be laboured on several levels.

HOW TO USE PCSA DETACHABLE ASSEMBLY JIGS FOR PC BOARDS

USING PC BOARD ASSEMBLY JIG IN VERTICAL POSITION

Practical use of PC Assembly Jig with PC Board in place.

Unslotting of components carried out with PC Assembly Jig in vertical positions.

PC board assembly jig screwed onto work top, with component-press lid down.

Foam rubber-lined lid for holding components in place. May be raised once front lock has been released.

Raising of whole PC board assembly jig unit rotating on its hinge-pin.

Self-adjustment to frame at right working angle, after unit raising.

Easy to detach PC assembly jig from frame. Rail positions as for types below.

PC Assembly jig with component-press lid closed screwed or clamped to work-top, in relation to the height of the components.

Foam rubber-lined lid for holding components in place. May be raised by applying pressure to front buttons (Anti-static conducting foam rubber for PCSA types)

Easy to unslot and detach various parts. (Frame-PC holder unit-component-Press Lid)

PC board assembly jig can be raised by turning special lateral knobs. Self-adjustment to frame at right working angle, after unit raising.
