

Cam Lock Tap Wrench

	<p>New Patented Design                  Cam-Lock action prevents tap from loosening during use                  Large tap range achieved by reversible double ended collet system                  Tap Capacity: Metric M3 – M12 (Inch 1/8 – 1/2 inch)                  Heavy duty design                  Handles high torque usage</p> <p>Can also be used as hand drill for sizes 2 – 8mm (5/64” – 5/16”)</p>
---	--

 <p>6-12mm (1/4-1/2")</p> <p>3-5mm (1/8-1/4")</p>	<p>Double ended collet is reversible and will accept taps from M3 to M12 &amp; 1/8 – 1/2 inch</p>
--	---

	<p>Operation:</p> <p>Position the T-handle parallel to the body                  Remove the nut and ensure that the collet is positioned to suit the tap size to be used                  With the nut loose, install the tap and finger tighten the nut                  Reposition the handle 90 degrees to the body, now the cam has locked the tap securely in place                  To remove the tap, turn the T-handle parallel to the body and the tap is released</p>
