

KVM CPU Switch Boxes

Multii Port

Features:

- Supports both PS/2 and serial mouse
- Hot-key functions allow easy computer access
- Plug and play system configuration
- Cascade configuration expands system capability
- High VGA resolution 1,920 × 1,440
- Auto-scan automatically selects computers sequentially
- Operating system independent, transparent to all applications
- Keyboard and mouse can be hot plugged at any time
- Keyboard states automatically saved and restored when switching computers

One-Console KVM CPU Switches

The KVM CPU Switch Boxes allows you to access multiple computers from one keyboard, mouse and monitor. There is no interface card or software to configure. Installation is as easy as connecting cables between the CPU Switch and your computers. Operation is as simple as pressing buttons or entering hot-key commands. The KVM CPU Switch is independent of computer operating systems, allowing the attached computers to run different applications

Specification Table

Number of Console Supported	Number of PC Supported	Part Number
1	4	KVM510
1	8	KNV108
