

Feature:

- This is a high purity liquefied gas designed for recharging portable gas powered equipment

Applications:

Can be used to refill portable soldering irons, lighters, igniters and glue guns, and any other portable gas powered appliances

Directions:

Invert can and press nozzle firmly into filler valve, using appropriate adaptor if required. Always follow the appliance manufacturer's instructions

Note:

Highly flammable liquefied propellant gas. Do not smoke during use, and avoid contact with naked flames and any ignition source

Warning:

Deliberately inhaling the contents may be harmful or even fatal

Technical Information

Appearance	Gas at room temperature
Odour	Distinctive odour
SG at 25°C	0.546
Pressure at 25°C	4 bar
Flammability	Classified As extremely flammable under CHIP regulations
Flashpoint	Not Applicable In sealed aerosol

Storage:

The product may be stored at normal temperatures and has a shelf life of not less than 36 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flames

Part Number Table

Description	Part Number
Butane Gas, 200 ml Aerosol	PPC113
