* Chromaticity coordinates $X = 0.31$ $Y = 0.32$

For use on AC voltage only.

¹ This LED was developed to run on a supply voltage of 130VAC only. An operation at a higher supply voltage using commercial lamp holders with integrated resistors is not approved.

² The 230VAC version is also for use in a lamp holder with integrated resistors to replace 130V 20mA incandescent lamps.

Due to production tolerances, color temperature variations may be detected within individual consignments.
