14×4.5mm Wheel Pair for Sub-Micro Plastic Planetary Gearmotors

14×4.5mm wheel pair with a sub-micro plastic planetary gearmotor and LEGO Minifigure for size reference.

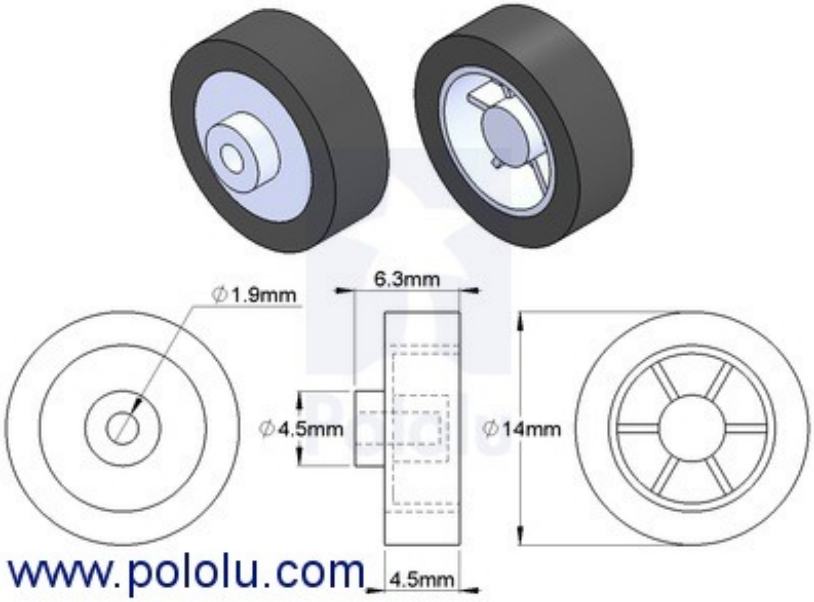
Motor connections
These wheels fit 2 mm diameter output shafts such as the ones on our sub-micro plastic planetary gearmotors. The tire is not removable.

> Due to small variances in the sub-micro plastic gearmotor's output shaft, in some instances, the 14 mm wheel might fit loosely. If you experience a loose fit, you could try swapping wheels or using a small dab of glue to help hold the wheel on.

Specifications
The wheel hub is made of ABS and the tires are natural ruer.

- **Diameter: 14 mm (0.55″)**
- **Width of tire: 4.5 mm (0.18″)**
- **Weight: 0.6 g (0.02 oz)**
- **Shaft type: 2 mm diameter**

The following diagram shows the wheel's dimensions in mm.



This dimension diagram is also available as a downloadable PDF (127k pdf).
