

KILOVAC LEV100H

Rugged 1000 VDC, 150 A Hermetically Sealed,
Extended Performance DC Contactor

KILOVAC LEV100H Contactors

The new KILOVAC LEV100H extended performance contactors with auxiliary contacts from TE Connectivity (TE) are designed for harsh environment and load applications. This version of our popular EV and LEV series contactors offers extremely high performance for its small size and low weight. Hermetically sealed, KILOVAC LEV100H contactors are capable of operating in harsh, explosive environments without oxidation or contamination of contacts, even after long periods of non-operation.

HERMETICALLY SEALED

- Safe for application in harsh, explosive, and corrosive environments
- No contact oxidation over periods of non-use

VERSATILE

- Not position sensitive; available in side and bottom mount configurations
- 8 kV isolation between open contacts permits use for high voltage isolation and carry
- 12, 24, and 48 VDC coils available

EFFICIENT

- Small 1000 VDC, 150 A contactor saves weight and space
