**LIFETIME WARRANTY**

If any Bondhus® tool breaks or fails to meet your expectations in any way, simply return it. We will replace it free of charge.

Stubby L-Wrenches eliminate the need to trim and file the short arm. A trimmed L-Wrench introduces burrs, and still does not have the tight radius of a dedicated Stubby L-Wrench.

Stubby tools fit in tight spaces where there is not enough overhead clearance for a standard hex key

High Torque Steel:

Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

### FINISH OPTIONS:

Corrosion-resistant finish:

Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

Next generation chrome finish:

Traditional plated tool look with superior protection and durability.

Tighter inside radius means full smooth entry into screw head
