

SKINTOP® CABLE GLANDS SKINTOP® MS-SC

The easy-to-use EMC gland.

The SKINTOP® MS-SC Screen Connection is the ideal gland for all Copper-screened cables. The widely variable clamping ranges greatly simplify mounting and allocation and thus permit economic storage.

The SKINTOP® MS-SC looks like a normal gland, but contacts the screen much more rapidly than any other system.

With the SKINTOP® MS-SC the cable is centralized, attached, strain-relieved and hermetically sealed (IP 68). You introduce the cable, ensure the screening braid is in the contacting spring, and twist tight. With the SKINTOP® MS-SC the cable's screening braid is not only there for mechanical strength, but also helps achieve an optimum low resistance screen contact.

TECHNICAL DATA

Protection Class: IP68

Temperature: -30°C to + 100°C

SKINTOP® MS-SC

Part Number	PG Size	Thread length mm	Outside diameter mm	Minimum Ø over braid mm
