HV High Voltage Series

Vishay Vitramon

Surface Mount Multilayer Ceramic Chip Capacitor Solutions for High Voltage Applications

FEATURES

- Excellent reliability and thermal shock performance
- High voltage breakdown compared to standard design
- High reliable serial electrode design

- Polymer termination available for intensive, board flex requirements
- · Wet build process
- Reliable Noble Metal Electrode (NME) system
- Material categorization: for definitions of compliance please see <u>www.vishay.com/doc?99912</u>

APPLICATIONS

- Input filter capacitors
- Output filter capacitors
- Snubber capacitors reduce MOSFET voltage spikes
- Filtering for switching power supplies
- For lighting and other AC applications please contact: <u>mlcc@vishay.com</u>

ELECTRICAL SPECIFICATIONS

X7R

GENERAL SPECIFICATION

Note Electrical characteristics at +25 °C unless otherwise specified

Operating Temperature: -55 °C to +125 °C

Capacitance Range: 150 pF to 15 nF

Voltage Range: 3000 V_{DC}, 4000 V_{DC}, 5000 V_{DC}, 6000 V_{DC}

Temperature Coefficient of Capacitance (TCC): \pm 15 % from -55 °C to +125 °C, with 0 V_{DC} applied

Dissipation Factor (DF): 2.5 % maximum at 1.0 V_{RMS} and 1 kHz

Insulating Resistance: at +25 °C 100 000 M Ω min. or 1000 Ω F whichever is less at +125 °C 10 000 M Ω min. or 100 Ω F whichever is less

Aging Rate: 1 % maximum per decade

Dielectric Strength Test: applied test voltages V_{DC} / 4000 V_{DC} / 5000 V_{DC} / 6000 V_{DC} - rated: min. 120 % of rated voltage

Revision: 04-Jun-2018

POLYMER TERMINATION

Polymer termination provides additional protection against board flexure damage by absorbing greater mechanical and thermal stresses. Components can be packaged, transported, stored and handled the same standard terminated product. Reflow soldering of MLCC does not require modification to equipment and / or process. Polymer termination greatly reduces the risk of mechanical cracking however it does not completely eliminate.

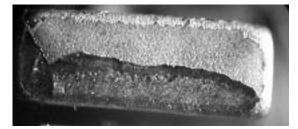

STANDARD TERMINATION

Exposed Electrodes = Electrical Short

OMD CAP PLUS POLYMER TERMINATION

No Exposed Electrodes = No Electrical Short

STANDARD PACKAGING QUANTITIES (1)

CASE CODE	TAPE SIZE	7" REEL QUANTITIES PACKAGING CODE "T"	11 1/4" AND 13" REEL QUANTITIES PACKAGING CODE "R"
1812	12 mm	500 ⁽²⁾ / 1000	4000
1825	12 mm	500 ⁽²⁾ / 1000	4000
2220	12 mm	500 ⁽²⁾ / 1000	n/a
2225	12 mm	500	n/a

Notes

⁽¹⁾ Reference: EIA standard RS 481 - "Taping of Surface Mount Components for Automatic Placement"

⁽²⁾ Lower quantity for certain ratings, see "Selection Chart"

STORAGE AND HANDLING CONDITIONS

- (1) Store the components at 5 °C to 40 °C ambient temperature and \leq 70 % relative humidity conditions.
- (2) The product is recommended to be used within a time-frame of 2 years after shipment.

Check solderability in case extended shelf life beyond the expiry date is needed.

Precautions:

- a. Do not store products in an environment containing corrosive elements, especially where chloride gas, sulfide gas, acid, alkali, salt or the like are present. This may cause corrosion or oxidization of the terminations, which can easily lead to poor soldering.
- b. Store products on the shelf and avoid exposure to moisture or dust.
- c. Do not expose products to excessive shock, vibration, direct sunlight and so on.

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
