

FEATURES

1. Space saving, Vertical size with a maximum thickness of 4.5 mm.
Mounting space has been reduced to 30% (compared to conventional SSR's) while meeting high density PC board mounting requirements.
2. 1A and 2A load types available
3. Zero-cross type and Non zero-cross type available
4. High dielectric strength of 3,000V AC
(between input and output)

5. Snubber circuit integrated
The snubber circuit is integrated to prevent malfunction caused by the rapid rise of voltage on the output side, such as inductive load and current.
