

Wiha. Premium Tools  
for Professionals.

Wiha SoftFinish® electric. The Safe & Comfortable Insulated VDE Screwdriver.

*Insulation moulded  
directly onto blade  
offers maximum safety.*

*Ergonomic handle  
geometry with  
SoftFinish® surface  
gives highest  
possible comfort.*

Applications on live equipment are subject to very special requirements. The focus is on absolute user safety and Wiha demonstrates this with a wealth of details.

The high quality blade insulation is moulded directly onto the blade and therefore guarantees safety when working on live equipment up to 1500 V DC or 1000 V AC. To maintain this safety, each screwdriver of the SoftFinish® electric series is individually tested in a water bath at 10.000 Volts according to DIN EN 60900.

The roll-off protection and the special handle geometry offer optimum handling and electrical safety, even in critical applications. Furthermore, the exclusive SoftFinish® handle shape allows maximum user comfort.

#### SoftFinish® electric Advantages:

- Insulation moulded directly onto blade
- Tested to the professional GS Standard
- Safety when working up to 1000 V AC and 1500 V DC
- Each screwdriver is individually tested in a water bath at 10.000 Volts according to DIN EN 60900 (IEC 900)
- Multi-component SoftFinish® handle provides maximum user comfort
- Ergonomically perfect handle design
- Imprinted screw symbol on handle end for fast identification

### For Hex Nuts.

#### 322 VDE Nut Driver.

Insulation up to 1000 V AC, GS-Mark.

Blade: Chrome-vanadium steel, through hardened, black-finish. Insulation moulded directly onto blade.

Deep drawn socket.

Handle: Ergonomic Wiha SoftFinish® handle, multi-component with roll-off protection.

Standards: DIN 7445.

Manufactured acc. to DIN EN 60900 (IEC 900), each tool individually tested in a water bath at 10 000 Volts.

Application: For electrical applications up to 1000 V AC.
