

NATURALIGHT™ LAMPS

Think green, think Naturalight™

Naturalight™ lamps last up to 10 times as long as ordinary bulbs and produce a full spectrum light that reduces glare and eye-strain making close-up tasks like reading, writing, sewing and general inspection work easier

THE STORY

I am green!

I'm one of the range of Naturalight™ lamps, and we've all been designed to do our bit to protect the planet. Take our energy-saving tubes for example. They provide loads of light, but use 80% less power - saving you money! We also incorporate natural materials wherever possible, and we're made to the strictest environment-friendly production standards. That's why we can display the R0HS logo on our boxes. And that's not all. All our packaging is now completely, 100% lovely cardboard - so you can do your bit too, and recycle it. For even more eco-friendly info about us you can go to www.naturalight.com
