# RJ45 Portsaver

RJ45 Portsaver (STT +STS + FTT)

Our high quality gold plated RJ45 Portsaver allows the user to protect the RJ45 ports on expensive devices from frequent connection and disconnection of RJ45 cables. Expensive repairs are avoided by effectively extending the RJ45 port by 10cm, reducing strain from cables and protecting the port from multiple insertions. The life of equipment connectors is prolonged as the Portsaver acts as a 'sacrificial jack'.
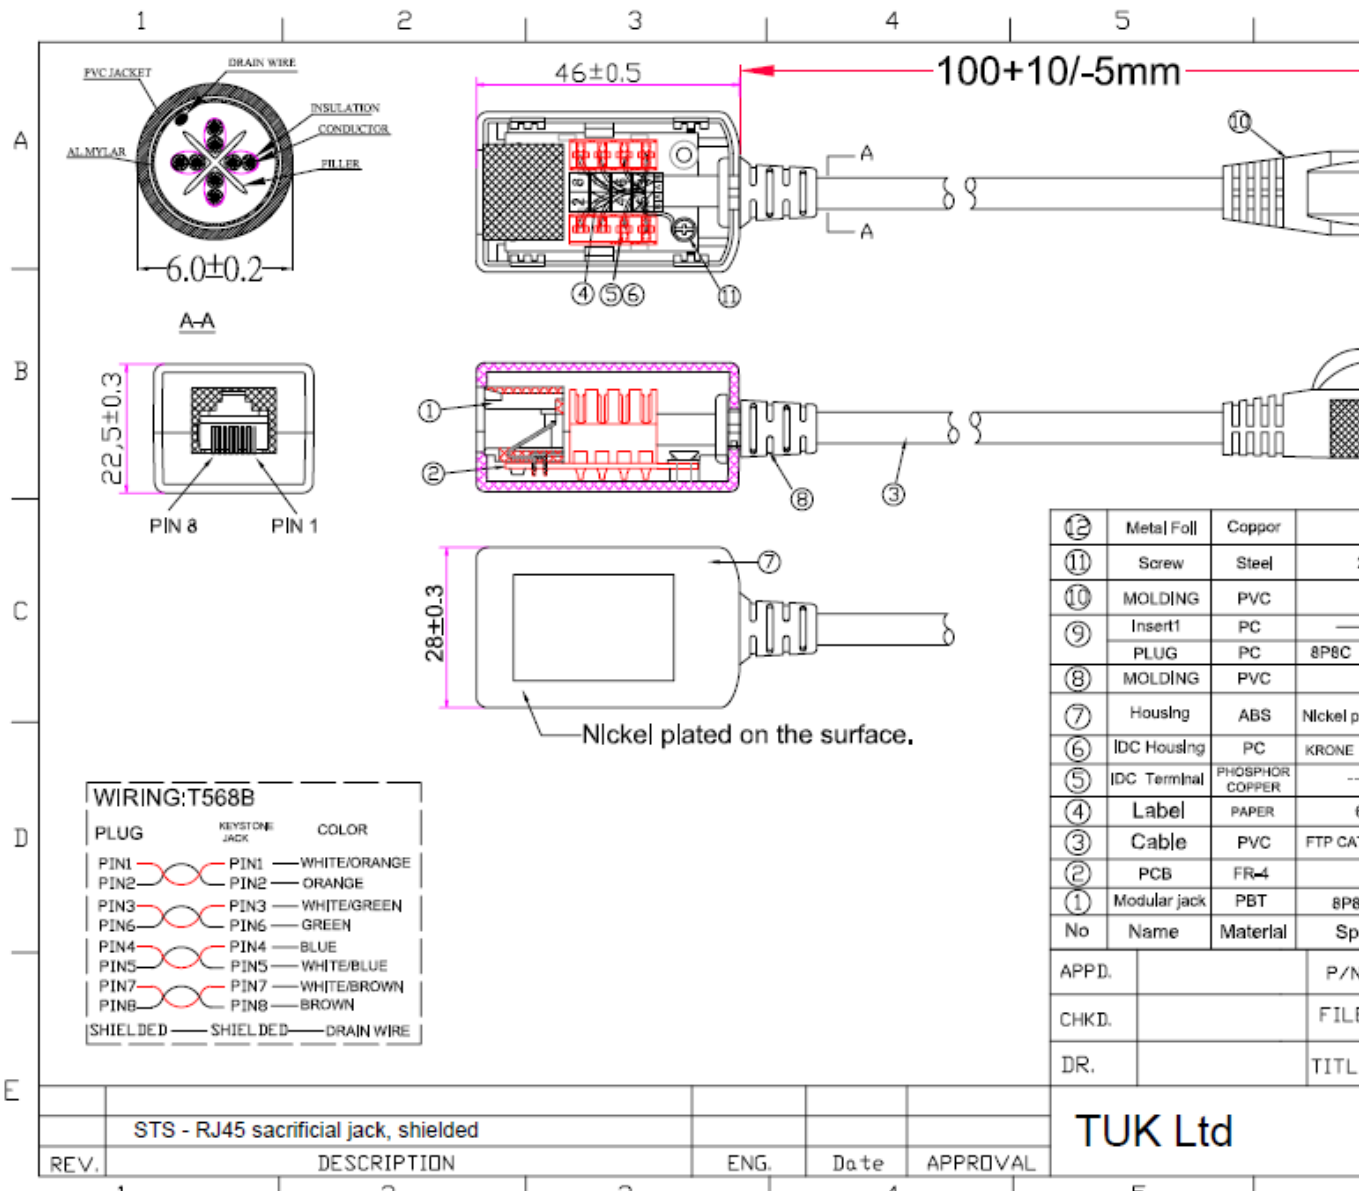

Features

- Suitable for at least 1000 insertions.

- Tested to Category 6 or Category 5e transmission standard.

- Available in unshielded (UTP) and shielded (FTP) versions.

- Particularly suitable for simple LAN testers, PDA's and notebook PC's.

Specifications

- Colour : Unshielded (STT & FTT) - Black
         Shielded (STS) - Silver (nickel plate)

- Plating: Gold and palladium plated to ensure long lasting high quality contact

- Performance: Category 6 (STT & STS) – individually tested to comfortably exceed Category 6 standard at channel level.
   Category 5e (FTT) – tested to Category 5e at channel level.
