

Pushing Performance

People | Power | Partnership

The key technology for Ethernet cabling.
Ha-VIS preLink®

A superior combination of speed and reliability: the Ha-VIS preLink®

Ha-VIS preLink®
now available
across the full
product range

HARTING's Ha-VIS preLink® is a complete solution for implementing Ethernet cabling. This system solution is a comprehensive product range that offers versatile swappable mating profiles, device interfaces and corresponding junction boxes.

The Ha-VIS preLink® termination block is at the heart of the system: it can be wired with total safety in one step using our preLink® crimping tool. This ensures that your cabling remains versatile and sustainable into the future – with **100% process reliability!**

The same three simple steps are required for each installation:

1

The cable wires are inserted into the Ha-VIS preLink® termination block according to their colour codes.

2

The Ha-VIS preLink® crimping tool ensures that the wires are always assembled precisely and correctly.

3

The wired Ha-VIS preLink® termination block can then easily be snapped onto a variety of different Ha-VIS preLink® mating profiles.

**The Ha-VIS preLink®
RJ45 connector**
For PROFINET connections

**The Han® PushPull V14 preLink®
RJ45 connector**
For AIDA interfaces

**The Ha-VIS preLink®
M12 D-coded connector**
For sensor interfaces

**The Ha-VIS preLink®
M12 X-coded connector**
For railway applications

**The Ha-VIS preLink®
RJ45 jack HIFF-format**
For panel feed throughs and
service interfaces

**The Ha-VIS preLink®
RJ45 Keystone jack**
For electrical cabinet patch panels and outlets

The Ha-VIS preLink® Extender
For cable extensions and
cable transitions: solid-stranded

The Ha-VIS preLink® An overview of the advantages:

- Swappable mating profiles: for versatile and sustainable Ethernet cabling
- Our Ha-VIS preLink® assembly tool ensures a reliable installation process
- Easy, quick installation in cramped spaces
- Pre-assembled cable segments can be swapped out quickly during maintenance and upgrades
- Comprehensive system-based product portfolio for automation, railway and energy applications

RJ45 connector

- Robust and compact
- For safe installation – even in difficult situations
- Optimised external dimensions provide exceptional plugging reliability for industrial switches

har-port service interfaces

- Attractive service interfaces for initial commissioning and servicing
- Fits into any housing opening with a standardised M22.5 panel cut-out – thanks to our compact HIFF (HARTING industrial form factor) RJ45 jack

DIN rail outlet

- Easy to install on the DIN rail
- Integrated shield connection to DIN rails in the electrical cabinet
- Small space saving design
- Compatible with standardised Keystone-format

Han® PushPull connector Electrical cabinet interface and device interface

- Standardised and easy-to-operate PushPull interface
- PROFINET-compliant
- Quick and reliable installation – also for IP65 / IP67 degree of protection

M12 connector

- Proven M12 robustness
- PROFINET-compliant
- Quick and reliable installation – also for IP65 / IP67 degree of protection
- Quick upgrades from Fast Ethernet to Gigabit Ethernet are possible – thanks to the uniform housings for 4-pole D-coded and 8-pole X-coded

Industrial junction boxes

- Robust, indestructible junction boxes for Han® 3 A und PushPull interfaces
- With optimised cable clamp – so that the cable can be conveniently assembled outside the junction box.
- Quick and reliable installation – also for IP65 / IP67 degree of protection

Patch panels and RJ45 jacks

- Industrial 19"-format termination technique
- Compatible to the standardised Keystone-format
- Assembled with 24 Keystone jacks: available as ready-to-use system

			Advantages	Description	Part number
Components in Keystone-format	Jacks		<ul style="list-style-type: none"> Standardised Keystone-format fits for 19" patch panels and outlets Built-in protective cover 	preLink® RJ45 jack with Cat. 6, Keystone-format incl. cable termination block AWG 24 – AWG 22	20 82 501 0001
				preLink® RJ45 jack with Cat. 6, Keystone-format (without cable termination block) Angled version (without cable termination block)	20 82 500 0001 20 82 500 0002 (Package quantity: 24 pieces)
	19" patch panel		<ul style="list-style-type: none"> Fits with all Keystone-format jacks Inexpensive because of simple set up Additional strain relief mechanism 	19" patch panel, Keystone-format, empty	20 82 400 0002
				19" patch panel, Keystone-format assembled with 24 preLink® jacks for AWG 22 / 23	20 82 405 0001
	DIN rail outlet		<ul style="list-style-type: none"> Fits with all Keystone-format jacks Built-in cover protects against dust Labelling field 	DIN rail outlet, single Keystone-format, empty	09 45 851 0000
				Cover plate set (with 2 covers)	09 45 851 0001
HIFF-format components	Jacks		<ul style="list-style-type: none"> HIFF-format: for use in Han® 3 A, HARTING PushPull (V4), Han® PushPull (V14) and har-port 	preLink® RJ45 jack with Cat. 6, HIFF-format incl. cable termination block AWG 24 – AWG 22 AWG 27 – AWG 26	20 82 001 0001 20 82 001 0002
				preLink® RJ45 jack with Cat. 6, HIFF-format without cable termination block	20 82 000 0002
	19" patch panel		<ul style="list-style-type: none"> Fits with HIFF-format jacks Movable jack carrier – helps to save time and money during the assembly process Additional strain relief mechanism 	19" patch panel, HIFF-format, empty	20 82 400 0001
	Junction boxes		<ul style="list-style-type: none"> Suitable for surface mount or installation in electrical cabinet Robust aluminium die cast housing Easy to assemble External attachment and earth connections Degree of protection: IP65 / IP67 	Junction box assembled with 2 preLink® RJ45 HIFF-format jacks, for AWG 22 / 23	20 82 101 0220
				Accessories for mounting on DIN rail	20 80 000 0003
				Han® 3 A metal outlet, with 2 Han® 3 A RJ45 ports, assembled with 2 preLink® HIFF-format jacks, for AWG 22 / 23	20 82 102 0101
	Device interfaces		<ul style="list-style-type: none"> Fits with HIFF-format jacks Standardised interfaces can be easily implemented in devices as well as electrical cabinets Degree of protection: IP65 / IP67 	Han® 3 A bulkhead mounted housing Black plastic Grey plastic	09 20 003 0327 09 20 003 0301
				Han® 3 A HIFF adapter for assembling the HIFF modules	09 45 515 0024
				Han® PushPull (V14) bulkhead mounted housing for HIFF modules Black plastic Rectangular metal Round metal	09 35 012 0331 09 35 012 0311 09 35 012 0312
	Service interfaces		<ul style="list-style-type: none"> Easy to assemble Compact design 	har-port RJ45 service interface, incl. HIFF coupling	09 45 452 1560
har-port panel feed through, suitable for holding HIFF modules				09 45 452 0000	
har-port RJ45 service interface with cable (RJ45 jack to RJ45 plug)				09 45 452 1501 - 09 45 452 1518	

			Advantages	Description	Part number
Connector	RJ45		<ul style="list-style-type: none"> Industry-proven 	preLink® RJ45 connector	20 82 101 0010
	Han® PushPull		<ul style="list-style-type: none"> Compliant with PROFINET and AIDA Proven PushPull locking mechanism 	Han® PushPull (V14) preLink® RJ45 connector Plastic	20 82 204 0001
