

Catamount™ Terminals

NEW!

Catamount™ Terminals – Now in Convenient, Spillproof, Re-Usable Packaging!

While poly bags keep their contents dry, they don't offer much other protection, and they aren't environmentally friendly. That's why Catamount™ terminals now come in sturdy plastic containers that safeguard the connectors inside against crushing and can be re-used or recycled when empty. T&B is always adding value to its products. With the introduction of a durable plastic container, the value of T&B's Catamount™ terminals has been significantly enhanced. No more lost or spilled terminals because of inadequate packaging.
