

**FTS-240 & FTS-50 Fish Tapes - Data Sheet**

Jonard tools FTS-240 and FTS-50 Fish Tapes use a 1/8" wide x 1/16" thick steel tape with permanently laser etched measurement markings (in English and metric units) every foot (0.3m) to assist in the process of pulling wire or cables. Ideal for long runs and where heavy duty wire pulling is required. The FTS-50 is 50 feet long and the FTS-240 is 240 long.

The case uses high impact plastic for superior impact resistance, has a comfortable ergonomic grip and is designed for superior pay-out and rewind. A viewer port is also included for visually determining the amount of tape left in the case.
