720 GFX Series Sealed and Rugged Keypads

Storm Interface

These tough, water resistant keypads feature moving, tactile keys with a responsive 'over-centre' action.
Keytop graphics can be easily customized by the use of legend tiles under 'snap-on' transparent keycaps.
Once snapped into place the tamper resistant keycaps encapsulate and protect the keytop graphics.

The keypad can be installed on the surface or under the panel.
(Underpanel Installation Instructions are in the Underpanel Fitting Kit).
Fit the supplied silicone seal into the seal groove on the keypad
Use the groove on top for underpanel, and on back for surface fix.
The wide part of the seal goes into the groove – see picture below
of the seal fitted to the back of the keypad.

To customise the layout place a colour tile and a legend tile onto the key base, and clip the keycap over the top.
