## The psychology of colours

Colours play an important role when it comes to safety signs: they convey a message - and each safety colour has a specific meaning.

The colour of the sign specifies the nature of the sign: **red signs** are prohibitive; **blue signs** are mandatory; **yellow signs** are warnings; and **green** is used for safe condition and first aid signs.

Similar rules apply to the different shapes: prohibitive and obligatory signs are circular; warning signs are triangular; and oblong signs offer help and directions. All Brady signs meet these requirements concerning colour and shape.
