

BT-USB-M2

Compact Bluetooth™ USB adapter

Compact Bluetooth™ connectivity.

A truly small and compact Bluetooth™ Wireless USB adapter for Phone, PDA, Notebook and the rest of your digital life.

The new Dynamode **BT-USB-M2** breaks the unadventurous design of competing Bluetooth™ adapters by offering most of the host electronics within the confines of the actual USB connector! Result – a Bluetooth™ adapter which can be left permanently plugged into a Notebook's USB Port, while in its Notebook bag, or moving from office to office without fear of the device becoming unplugged or damaged.

Fully Bluetooth™ Version 2.00 compliant for simultaneous connections to other Bluetooth™ devices and a high-powered Class-1 100 metre range using a data transmission of up to 3Mbps coupled with extensive Wireless security.

Ideal for Bluetooth™ PAN (personal area networking), VoIP applications, data transfer and Fax/Dialup applications, the new Dynamode **BT-USB-M2** breaks the convention in discrete Bluetooth™ connectivity.

Advanced features

Compact design – slightly larger than a USB plug

Up to 3Mbps Bluetooth™ data speeds

Bluetooth™ v2.0 and v1.2 compliant

Class-1 compliant – up to 100 metre range*

CSR™ low power Processor
