FBGA Part Making Decoder

Due to space limitations, FBGA-packaged components have an abbreviated part marking that is different from the part number. Micron's FBGA Part Marking Decoder makes it easier to understand that part marking.

Simply enter the five-digit code in the FBGA Code field and click "Search" to get the full part number. The FBGA code is the second 5-digit code found in the chip marking. It is typically preceded by an MT mark. (See [Customer Service Note 11](#) for the correct position of the five-digit code)

To view the FBGA code for a full part number, enter the part number in the Part Number field and click "Search" to return the FBGA code.

Enter your FBGA Code to search for your part:

FBGA Code
