# D-Line

Decorative Cable Management

Typical applications

• Drops for Switches and Fire Call points

• For Satellite & Aerial

• Above Skirting Tops

Semi-circular Mini D-Line (30x15mm) is ideal for hiding cable drops, while the unique shape can provide a discrete cable path above skirting tops.
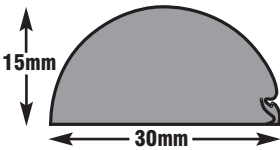

The patented hinged and click-lock lid in a single piece design makes the product easy to handle and easy to later add or remove cables. Also available are packs of flush-fit accessories (couplers, bends, tees, end caps etc.) for perfect finish (see below).

Lengths supplied White ...D-Line can be painted. Self adhesive backing for easy fitting.

D-Line is the perfect choice to hide wires in stylish profiles that simply blend with modern decor.

Pack Contents
30x15mm

6 x 2000mm SELF ADHESIVE lengths with HINGED AND CLICK-LOCK LID

15mm 30mm

Product Ref: 3015SAP16W   **Accessories Pack (Flush Fit) as below**

Flat bend	Internal bend	External bend	Equal Tee	Cable outlet	Coupler	End cap
x2	x2	x2	x1	x2	x5	x2

Product Ref: 12FCLIPPACK

D-LINE

Fire Cable Clip

Typical applications

• To secure 2x 1.5mm 2c FP Cables
• For best installation use in
  D-Line 30x15mm fast fit trunking
  or 30x30mm Quadrant trunking.

It is a requirement of BS5839 Part 1 that surface mounted Fire Performance cables must be secured using metallic fixings that can withstand the same temperatures and vibration as the Fire Performance cables.
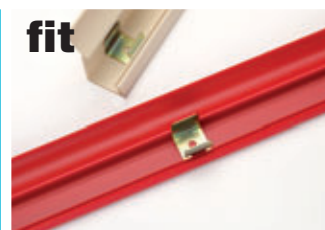

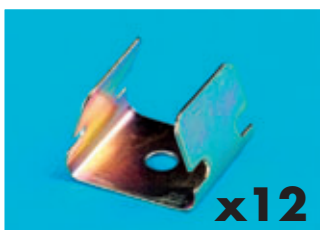

In this way there is no possibility of live cables dropping down to compromise integrity of the circuit, or for example posing a risk to firefighters.

The D-Line F-Clip has been tested by Bodycote Warrington Fire, confirming it satisfies cable management requirements of BS5839 part 1. The tests confirmed that the F-Clips, when subjected to 830 degrees C (+-40 degrees C) for 30 minutes at a voltage of 500V rms, enabled the FP cables to maintain circuit integrity.

The F-Clip is manufactured from high temperature steel, with a gold passivated finish to provide protection against mildly corrosive elements. With no sharp edges and easy to fold tabs the F-Clip is simple to use.

Installation time is almost halved as one clip fits 2 FP cables, compared to fixing one P-type clip per FP cable.
