## Temperature & Humidity Sensors

The Tempatron DP series temperature and humidity sensors are designed for sensing temperature and humidity in commercial and industrial applications. Temperature only versions are available as well as combined temperature and humidity versions.

The sensors are available in wall mounting, duct mounting and industrial environment wall mounting enclosures and have a selectable 0-1Vdc or 4-20mA output.

These high accuracy sensors have an enclosure code of up to IP55 and are powered from a 8 to 30Vdc or 12-24Vac.
