2.3
FIXING HOLE 0.438" DIA / 11.11mm

Mounting is effected by screwing the chrome facia nut (with plastic bezel) into a threaded plastic bush which protrudes from the body. Coloured bezels may be used. Contacts are NIAG alloy. The back of the socket is closed to prevent access through the socket. Ordering code as for S2. When ordering a mono type specify centre contact as 'N' e.g. S4/SNS/BLK. PC mounting versions - See below. OPTION S4P / Front Metal nut is replaced by a Matt Plastic Combined Nut / Bezel.
