### Description:

Cable Tie 18lb 4" Ultraviolet Resistant Black Nylon with Stainless Steel Locking Device #4 Mounting Hole

### Features

- Oval low profile head is designed to prevent snags on uneven surfaces and easier to pull through bulkheads. Non-magnetic stainless steel locking device insures both maximum strength and the right tightness every time. Because there are no notches, Ty-Rap ties provide an infinite number of locking positions while fastening the tie at the precise **bundle** diameter needed.
- The Turned-up Tail orients the tie for easy assembly, making the ties easier to pick up on a flat surface. The No-Slip Tail provides easy grip during tensioning. Ty-Rap ties feature a unique friction surface designed to reduce slippage during installation.
- Smooth, notchless body reduces stress concentration points under tension, making the tie stronger and lower profile than notched body ties. Ribbed and Stippled body grips the **bundle** and prevents slippage. Rounded edges protect insulation, preventing sharp edges from damaging cables.
