Unified price and delivery available upon request

## Expansion-Sert™ Information for designers

The Expansion-Sert™ is a press-in insert, designed for post mould installation into thermosets. The knurl pattern makes this insert ideal for hard thermosets.

### Advantages:

- Simple, press-in installation
- Provides self-locking action on mating screw
- Good pull out and torque resistance

### Installation Data

The Expansion-Sert™ should be installed with a press that can provide a steady squeezing action to prevent damage to the mating boss. It is important that the mating screw fully penetrates the insert to achieve full expansion and optimum pull-out resistance.

Reverse Headed Expansion-Sert™ - RVBRXP

## Prefix & Suffix Ordering

*\*For thread size, please refer to the first characters prior to the “-“ on the part number (i.e. M2, M2.5, etc.)*

*\*SF part number suffix relates to Self Finish*
