Product Highlights

Molex's new 2.00mm pitch SMT CLIK-Mate connectors provide dual positive locks and a superior audible "click" to help ensure connectors are fully mated. CLIK-Mate was designed for applications such as LCD TVs that require higher pin count connectors to carry more signal lines in less space. The system includes a unique tuning-fork terminal concept that provides low insertion force and secure mating contact. The system is available in both vertical and right angle versions in 4 to 14 circuits to meet various application needs.
