KS with viewing window:
IP 56 to EN 60 529/10.91,
complies with NEMA 12.

Supply includes:
Enclosure of solid all-round construction,
r/h door hinge,
door hinge may be swapped to opposite site by rotating the enclosure,
mounting plate,
all-round foamed-in PU seal in the door,
twin seal on the top and bottom edges of the door (integral rain protection strip), press-fitted C sections at the sides for infinitely variable mounting plate depth adjustment.

Note:
Under the influence of long-term UV radiation (sunlight) in conjunction with wind and rain, the surface finish may become visually impaired.
In other words, the fibreglass portions become visible on unprotected surfaces. This does not impair the protection of the installed electrical components in any way. All other surface finishes are likewise impaired by ultraviolet radiation.
If the enclosures cannot be protected from radiation, e.g. via a sun canopy, we recommend that they should be painted with a PUR paint. Older enclosures where the surface finish already reveals visible fibreglass portions can likewise be treated in this way after thorough cleaning.

Of course, all enclosures can also be supplied spray-finished in RAL colours. For outdoor siting, we recommend pale shades.

Approvals,
see page 27.
