

## ▶ Current Loop Simulator

#### **Simulator**

#### **Features:**

- 1. Low cost, pocket size simulators for 4 mA, 12 mA and 20 mA
- 2. The simulator are easy to use and provide a quick way for checking calibration or as a current source for setting up engineering units on a process indicator or controller.
- 3. The simulator can be used as a precision source for general purpose signal injection.
- 4. Compact case features push button range selector switch for single handed operation.
- 5. Bright red LED's indicate simulation range or when battery power falls below a specific level.

### **Specifications:**

Range	4 mA, 12 mA, 20 mA
Accuracy	0.2 mA
Power	9V DC
Dimensions	75 x 100 x 30 mm.
Weight	160g.

# **X-ON Electronics**
