Mini LAN Tester

## Viclelk

The extremely compact tester is an incredible $9 \mathrm{~cm} \times 5 \mathrm{~cm} \times 2.5 \mathrm{~cm}$ in size - ideal as a pocket-sized RJ45 tester for everyday use. It features both the local and remote units allowing for the required testing.

## Features:

- Small size, easy to carry
- Multi-function, simple operation for testing standard RJ45 cables
- Open, Short, Straight and Crossover test functions with LEDs and beep sound
- Battery (supplied) power status indication with Manual/Auto select function
- Sound switch \& power saving mode
