Mounting Rail

Depending on the various applications, the mounting rails are made of steel, aluminium, or copper. All steel versions are electroplated and additionally passivated with a yellow chromate coating. For reasons of shipping, 1m mounting rails are supplied for quantities for up to 10m. Parts marked with * are available in 1 or 2m lengths.

All non-slotted mounting rails can be provided with fixing holes (please state dimensions b and l₂). Additionally, all non-slotted steel rails can be supplied with welded steel bolts (please state dimensions a and the desired bolt).

TS35 x 7.5
Steel, Slotted Steel or Aluminium

Fixing holes
Dimension b to specs.
(dia. 3.5/4.5/5.5/7)
Dimension l₂ to specs.
Dimension l₁ to 2 m

TS35 x 15
Steel or Slotted Steel

Fixing holes
for TS35 x 15, steel
Dimension b to specs.
(dia. 3.5/4.5/5.5/7)
Dimension l₂ to specs.
Dimension l₁ to 3 m

TS35 x 15/2.3
Steel or Copper

Fixing holes
Dimension b to specs.
(dia. 3.5/4.5/5.5/7)
Dimension l₂ to specs.
Dimension l₁ to 3 m
