Data sheet

Weller part no. T0053380870

Description Compact station for through hole rework, type WR2000 ER

Comprises WR2, 2 channel power unit

WP65 fast response soldering iron with auto. Stand-by function. 65W rated

WDH 10 safety rest

DSX 120 high power desoldering pencil, 120W rated

WDH 30 safety rest

Mains lead UK + Euro

Supply voltage 230V 50Hz

Tool voltages 24V 50Hz

Power rating 300W

Protection Class 1

Temperature range WP65 100C – 450C heat up time to 350C ca 7 sec

DSX 120 100C – 450C heat up time to 350C ca 35sec

Temperature accuracy +/- 9C

Temperature display digital LCD

Temperature setting up / down push buttons

ESD safe

Compliance IPC-J001

Consumables WP65 XNT series tips

DSX120 XDS series nozzles
