3500 Series Military Thermostats

Actual product appearance may vary.

Sales & Service   Distributor Inventory

| Overview | Specs | Documentation | Application Notes |

Description

The 3500 Series consists of a single pole, single throw switch activated by a snap action bimetal disc. Temperature calibrations are preset at the factory, and each unit is 100% thermally and mechanically inspected. It is available to open or close on temperature rise. The case is laser welded to form a hermetically sealed steel housing, with a glass-to-metal seal at the terminal junction. It meets or exceeds the requirements of MIS- 24236 and is designed specifically for military and commercial aircraft applications. It is not QPL listed (see 3MS1).

Features	**Potential Applications**
Features	Potential Applications
? Hermetically sealed	? Military and commercial aircraft
? Tight tolerances	<
? Tight differentials	
? Hi-Rel
