

LogiLink®

USB3.0 to VGA Display Adapter

Art. No.: UA0231

Experience 1080p video playback through USB 3.0 on an extended display.

10 times faster than USB 2.0, the USB 3.0 Display Adapter provides a wider bandwidth and a smooth high-resolution video content solution to add an extra display for your computer just plug and play. It works as an external USB-powered video card which provides the simplest way to add additional graphics capability instantly without hassle of opening the computer chassis. The connected display can act as a mirror or extended desktop of the main display on your computer. You can experience 1080p video playback through the VGA interface and Super Speed USB 3.0 for both work and entertainment.

Features:

- » Compliant with USB3.0 Specification
- » Backward compatible to USB2.0 specifications
- » Compliant with Universal Serial Bus Device Class Definition for Audio/Video Devices (USB A/V)
