

Weller®

Weller Rework Stations WMD1D / WMD1A

The multi application ability of this station makes it ideal for use in situations where the maximum amount of flexibility is required.

The station has an in built air pump to provide air for the hot air pencil and also vacuum for the desoldering tools, and can be used to rework both surface mounted and through hole components.

The WMD1S control unit is common to both stations, and incorporates a microprocessor controlled system to regulate the solder and desolder processes. The processor can also identify which tool is being used and calibrate the output automatically without the need for manual adjustment. All of the accessories listed below can be driven from the control unit.

By use of the WCB1 and WCB 2 control boxes, additional functions can be programmed into the base unit such as, temperature lock, set back time, temperature offset, °C / °F, factory setting reset.

Two versions are available:

WMD 1D Desoldering Station

Consists of:

- Control unit WMD 1S
- Desoldering set DS80UNC, 80 Watt

Order No. WMD 1D:
Product Code 332976

WMD 1A Hot Air Station

Consists of:

- Control unit WMD 1S
- Hot air pencil HAP 1, 100 Watt

Order No. WMD 1A:
Product Code 332959

Weller®

Weller Repair Station WMD 1S

Technical Data:

Dimensions (LxWxH):	240 x 270 x 105 mm
Mains voltage:	230 V 50 Hz
Power input:	175 W
Safety class:	1 and 3
Fuse:	T800mA 5 x 20
Temperature control:	Soldering / Desoldering iron: 50°C – 450°C
	Hot air pencil: 50°C – 550°C
	WSP 150: 50°C – 550°C
max. air:	20 l/min (hot air 10 l/min)
max. vacuum:	0,7 bar

The stations meet ESD requirements.

Accessories:
