

CRC 3-36

Corrosion protection and lubrication.

Ref. : 10030

1. GENERAL DESCRIPTION

Corrosion protection and lubrication. Stops rust and corrosion on all ferrous and non-ferrous metals during storage, production and transport. Displaces and seals out moisture. Penetrates and lubricates. Protects against corrosion. Loosens rusted and frozen parts.

2. FEATURES

- Multi-purpose lubricant, penetrant and corrosion inhibitor.
- Displaces and seals out moisture, especially after washing or hosing off engines or equipment.
- Penetrates through corrosion to loosen frozen parts.
- Lubricates without leaving a sticky residue.
- Cleans light soils and contaminants.
- Prevents 'fingerprinting' by its protective film.
- Protection of all metals and alloys.
- Compatible with most painted surfaces, coatings, plastics and rubbers.
- Equipped with the 360° (upside-down) spray valve for added convenience.
- Pressurised with non-flammable CO₂ propellant.
- Active product content of 97%.
- Specifications : NSN 6850-00-050-0659.
- NSF registration (aerosol):H2 (registration number: 139736)

3. APPLICATIONS

- | | |
|--|---|
| <ul style="list-style-type: none">• PROCESS MANUFACTURING :<ul style="list-style-type: none">- Heat treated parts- Machined surfaces- Finished welds- In-process aluminum extrusions- Precision mechanisms | <ul style="list-style-type: none">• MACHINING :<ul style="list-style-type: none">- Fixtures- Dies- Jigs- Shim stock- Chucks- Drill rod |
| <ul style="list-style-type: none">• MATERIAL STORAGE<ul style="list-style-type: none">- Tubings- Castings- Gears- Weld rod and wire | <ul style="list-style-type: none">• MAINTENANCE<ul style="list-style-type: none">- Air actuated tools- Conveyors- Frozen joints- Locks- Hoists |

CRC 3-36

Corrosion protection and lubrication.

Ref. : 10030

4. DIRECTIONS

- Spray in light, even films to lubricate and protect metal surfaces. For electrostatic spraying, addition of polar solvents (butanol, nitropropane, ...) may be necessary.
- Apply liberally and allow to penetrate to free rusted parts. Full penetration may require several hours.
- To displace moisture, spray wet surfaces until run-off is clear and moisture-free.
- To be removed by solvent cleaners (CRC Industrial Degreaser) or alkaline (CRC Complex Blue) degreasing before surface treatment.
- For application of CRC 3-36 in dipping baths, customers should take care to stir from time to time (to distribute small amounts of deposits) and to prevent excessive evaporation of solvent. When stable emulsions have been formed, the bath should be emptied and cleaned, and the product replaced.
- Do not use on energized equipment. Use in a well ventilated area.

A safety data sheet (MSDS) according to EC Regulation N°1907/2006 Art.31 and amendments is available for all CRC products.

5. TYPICAL PRODUCT DATA (without propellant)

Appearance	: blue-green, clear
Specific gravity (@ 20°C)	: 0.83
Distillation range of solvents	: 190-250°C
Freezing point	: -50°C
Flash point (open cup)	: 78°C
Dynamic viscosity (@ 20°C)	: 3.9 mPa.s
Ultimate film thickness (@ 20°C, after a 24 hr spread)	: 2.10 ⁻⁶ m.
Maximum expected coverage (@ 20°C, after a 24 hr spread)	: 100 m ² /l.
Solvent dissipation (@ 20°C, thin film)	: 2-4 h.
Film properties (after evaporation of solvent)	
Dynamic viscosity (@ 20°C)	: 64 mPa.s
Falex true load failure (ASTM D 3233, Proc.A)	: 8900 N
Salt spray resistance (*)	: 65 h.
Heat resistance	: 120°C (150°C short time)

CRC 3-36

Corrosion protection and lubrication.

Ref. : 10030

6. PACKAGING

aerosol : 12 x 300 ml
 12 x 500 ml
bulk (**): 4 x 5 l
 5 l + sprayer
 20 l
 200 l

(*) Typical corrosion protection results will depend mainly on surface conditions and indoor environment. It may be less than 1 month or more than 6 months. The first application therefore should be checked periodically for signs of corrosion. Once the time of protection under any specific condition is determined, CRC 3-36 may be re-applied at intervals to maintain protection.

(**) Bulk products are not NSF registered.

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

This Technical Data Sheet may already have been revised at this moment for reason such as legislation, availability of components and newly acquired experiences. The latest and only valid version of this Technical Data Sheet will be sent to you upon simple request or can be found on our website: www.crcind.com.

We recommend you to register on this website for this product so you will be able to receive any future updated version automatically.
