

MT.

Crank handles with revolving handle

technical informations

Material

Glass-fibre reinforced polyamide based (PA) technopolymer. Resistant to solvents, oils, greases and other chemical agents.

Colour

Black, matte finish.

Assembly

Black-oxide steel hub:

- with H9 pre-drilled blind hole.
- with H7 reamed through hole.

Self-adhesive front plate

Anodised aluminium.

Revolving handle

Type L.601+x high-resilience polypropylene based (PP) technopolymer, black colour, matte finish.

Accessories on request

Axial retaining washer type GN 184.

Features and applications

The reticular structure of the crank arm and the technopolymer used make this handle very strong and therefore suitable for transmitting high torque values.

$$L[J] = P[N] \cdot h [m]$$

$$C[Nm] = F[N] \cdot b [m]$$
