Home & Work Series

STI Mugger Stopper® Plus

12005

PRODUCT OVERVIEW

This device represents a significant step forward in personal protection. That's because Mugger Stopper Plus helps stop mugger attacks or harassment two ways: with an ear piercing 120 dB alarm or with an attention grabbing strobe light.

This two-way action also makes it more effective in summoning aid in case of an injury or fall. In addition, the built-in light can be used as a flashlight to help you find your keys or the keyhole on those dark, moonless nights.

HOW IT WORKS

To activate the Mugger Stopper Plus alarm and strobe light, simply pull out the plug on top of the unit. To turn on the built-in flashlight, slide the button on the side of the unit up.

IMPORTANT: The Mugger Stopper Plus alarm is extremely loud. For safety sake, never place the unit close to your ears. To test alarm, direct the unit away from you at arms length and pull out plug on top of unit.

FEATURES

· Strobe light makes it even more effective in summoning aid in case of injury or fall.

· Handy built-in flashlight to find keys, etc.

· Activate by pulling plug out on top of unit.

· 120 dB, 9 VDC battery operated alarm (battery not included).

· Carry in pocket or purse.

· With belt clip, can be worn on hip to resemble pager.

· Shock resistant and lightweight.

· Makes an ideal gift or stocking stuffer.

· One year warranty.
