

## RB Series Roller Ball Switch

**RB-01**  
Roller Ball Switch

- Lifetime Warranty
- Colors: White and Brown
- UL and ULC Approved
- Available in Closed Loop, Open Loop and SPDT
- Works from all 360 Degree Directions
- Standard 12" Leads or Terminal Blocks
- Longer Leads, Zip Cord or Jacketed Cable Available
- Supervisory Loops Available
- Includes Mounting Hardware and Spacers
- Terminals Require no Soldering, B Connectors, or Taping
- Pre-travel .06"
- Total Travel .195"

GRI's Roller Ball Switch is a unique application of a magnetic reed combined into a single package, mechanical plunger action and the reliability of a hermetically sealed switch.

The ball plunger can be activated from any direction within 360 degrees, using a sliding motion such as that produced by the opening or closing of a door or window into its frame. But they also have been used very effectively as an interior trap device by mounting on a flat surface, such as a display table, and placing the protected object directly on the switch to conceal and actuate the roller ball. GRI Roller Ball Switches can work when nothing else will. Spacers and mounting hardware included with switch and also available separately.

# ROLLER BALL - PLUNGER CONTACT

## INSTALLATION APPLICATIONS:

G.R.I.'s Roller Ball switch is a unique application of the magnetic reed, combining into a single package mechanical plunger action and the reliability of a hermetically sealed switch.

The ball plunger can be activated from any direction within 360 degrees, using a sliding motion such as that produced by the opening or closing of a door or window into its frame. But they also have been used very effectively as an interior trap device by mounting on a flat surface, such as a display table, and placing the protected object directly on the switch to conceal and actuate the roller ball. G.R.I. Roller Ball switches can work when nothing else will. Spacers and mounting hardware included with switch and also available separately. Not Recommended for the bottom track of doors or windows.

\* Fits 3/4" Hole

RB-01

## GRI products meet or exceed these minimum general specifications:

PART NUMBER	LOOP TYPE	ELECTRICAL CONFIG.	REED FORM	MAXIMUM INITIAL CONTACT RESISTANCE (Ω)	MAXIMUM CONTACT RATING (W)	MAXIMUM SWITCHING VOLTAGE (VDC)	MAXIMUM SWITCHING CURRENT (A)
RB-01	Closed	N/O	A	.150	10	200	.500
RB-02	Open	N/C	A	.150	10	200	.400VDC
RB-03	Open/Closed	SPDT	C	.140	5	175VDC	.250

## WARRANTY:

Lifetime warranty against workmanship, material and factory defects.
