Self-Closing Wrap

RoHS Compliant

Description

Self closing braided wrap is a non-expandable sleeving woven from monofilament (weft) and multifilament (warp) polyester yarns. It provided a lightweight, cost-effective and tough solution for the protection of a wide range of components. Its inherent flexibility allows it to bend, coil and conform to irregular shapes, while its open design allows it to be installed on completed assemblies.

Application

Most commonly used on wire harnesses, cable assemblies, flat ribbon cables, tubes and hoses to provide a tough, durable protection in automotive, automatic equipment, railways and panel boards

Specifications

Material	: Polyester monofilament and multifilament	
Operating Range	: -50°C to +150°C	
Melt point	: 240°C ±10°C	
Flammability	: DIN5510, BS6853	
Colour	: Black	
Cutting Tool	: Hot knife, Scissors	

Product Dimensions
