

Pre-printed Cable Markers

• Helagrip, chevron cut

Features and Benefits

Helagrip is a versatile and cost effective cable identification system. The specially designed internal profile allows one size of marker to be fitted onto a wide range of cable diameters. Helagrip's chevron cut ensures that the markers lock together, enabling the text legend to stay in place where cable movement or vibration is likely. The flexible material ensures that Helagrip cable markers always fit securely onto the wire.

Application

Ideally suited to panel building, mass transit, utilities, telecommunications and electrical contracting.

Helagrip is supplied on a reel (HGDC) for ease of use.

Markers are available as standard in international resistor colour code and yellow material marked in black. White material marked in black is available to special order. Characters are 0-9, A-Z and standard electrical symbols.

For smaller cables and wires it is recommended that you use the AD applicator or the TJC installation tool.

Clearly a better way to identify in confined spaces.

Helagrip chevron cut.
