- Universal 3-wire Design
- Hermetically Sealed Components
- Durable ABS Housing
- Operates with 35 to 400 Watt HPS Ballasts

Innovative Long Life Design

The US-30 Starter is a universal starting aid designed to operate with most 3-wire HPS ballasts from 35 - 400 watts and with 55 - 100 volt arc tube lamps. This one starter does the jobs of dozens of different 3-wire starters.

The US-30 Starter is a state-of-the-art device that generates the spike required for lamp ignition, then discontinues the spike after lamp ignition to prevent damage to the luminaire components. The US-30's components are hermetically sealed to prevent damage from contaminants or diverse environmental conditions, and its wire leads are color coded for ease of installation and maintenance.
