Working Postures:

29% of all injuries involving repetitive use of tools cause carpal tunnel syndrome.¹ The Greenlee Micro requires 76% less total muscle effort during one crimp cycle, reducing the rate of injury.

Grip Size:

The handle will accommodate the hand sizes of the majority of users and increases the ease of use during tool operation.

Trigger Design:

The innovative trigger reduces hand force from 53 lbs to 6 lbs and allows a dramatic reduction in fatigue rates and risk of ergonomic injury.

Adjustability:

PowerSense™ technology allows the user to hold and adjust material for ideal positioning before crimping.
