### **Additional Surge Protective Circuitry**

The AMEL5-AZ series design level surge protection is certified to IEC 61000-4-5 surge Line to Line of 1KV. However greater protection can be enhanced by adding protective devices to ingress circuitry. For example, by adding an MOV (Metal Oxide Varistor) device example S14K320E2 to the N / L input lines 2KV surge protection or greater, can be achieved.
