

3M™ Fibre Optic Couplings, LC

LC Single-mode and Multimode Couplings
Simplex and Duplex and Quad

3M offers a wide range of RoHS compliant LC couplings for all applications in Premise and FTTX networks.

All couplings comply with the corresponding Standards IEC 61754-20 and GR-326 for single-mode and multimode technology.

Single-mode couplings for both PC and APC connections are equipped with Zirconia ceramic split sleeves to ensure best alignment and high performance also under temperature extremes and rough handling conditions.

The precision moulded polymer housing provides constant long term optical and mechanical performance.

Also the multimode OM3 and OM4 couplings contain Zirconia ceramic sleeves, whereas the OM1 and OM2 couplings are equipped with PhBr metal sleeves.

All couplings can be fixed with the applied standard stainless steel fixing clamp. The flanged versions also have holes for 2mm screw fixing.

Features

- Single-mode and OM3/4 with Zirconia sleeves
- Integrated metal clips
- Flanged and unflanged versions

Benefits

- Low insertion loss, perfect alignment
- Easy and quick mounting in front plates
- High port density
