## ScotchCode™ Write-On Books ( SWB )

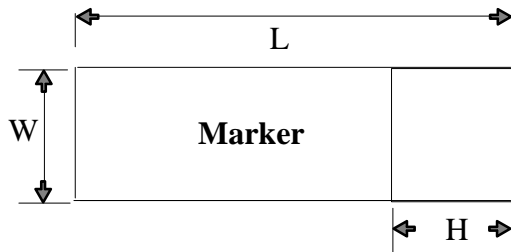

### Data Sheet

#### Application:

Fast, convenient write-on wire marker for marking wire and cable (with a O.D. of 0.16 to 1.55 inches) , while providing a self-laminating protective shield over the legend. The liner tab allows: 1) Easy removal of markers from the liner and 2) Removal and application of the marker without touching the adhesive thus reducing contamination of the adhesive.

#### Engineering Specification:

The markers shall be bound in a trifold book which is printed with electrical reference information. The marker will be made of a vinyl film with acrylic pressure-sensitive adhesive. The clear vinyl film provides a self-laminating, protective shield over the legend. The liner tab shall allow easy removal of the marker from the book and application onto the wire with out touching the adhesive surface.
