Multi-Function Cable Tester with Wire Tracker and Tone Generator

MODEL NUMBER: **T012-001-K**

Highlights

- Find an RJ11, RJ45 or BNC cable among group of cables
- Find a short or breakage in non-powered wires
- Perform wire mapping on RJ45 cables
- LED flashlight on remote probe unit
- Included headphones for use in noisy areas

Package Includes

- Main tester
- Remote probe unit
- RJ45 jumper cable
- RJ11 jumper cable
- Alligator clip adapter
- Headphones
- (2) 9V batteries
- Carrying case
- Owner's manual

Description

The T012-001-K Multi-Function Cable Tester is an essential tool for cable installers or anyone working in telecom or LAN environments. It allows you to track cable, find a short or breakage in non-powered wires, and perform wire mapping on RJ45 cables, detecting shorts and open wires. Powered by included 9-volt batteries in the main tester and remote probe unit, the T012-001-K can find an RJ11, RJ45 or BNC cable nestled within a group of cables. The probe unit's LED flashlight is handy for working in dark areas. Included headphones help you work in noisy environments. An adjustable volume button lets you fine-tune the tone generator.

Features

Essential Tool for Cable Installers or Telecom/LAN Personnel

- Find RJ11, RJ45 or BNC cable among group of cables
- Find short or breakage in non-powered wires
- Perform wire mapping on RJ45 cables, detecting shorts and open wires
