# Cree ${ }^{\circledR}$ Screen Master ${ }^{\circledR}$ 5-mm Oval LED C566D-RFF/GFF/BFF/AFF C566D-RFE/GFE/BFE/AFE 

## PRODUCT DESCRIPTION

The oval LED is specifically designed for variable-message signs and pas-senger-information signs.The ovalshaped radiation pattern and high luminous intensity ensure that these devices are excellent for wide-fieldof -view outdoor applications where a wide viewing angle and readability in sunlight are essential.

These lamps are tinted and diffused. The encapsulation resin contains antiUV material in order to reduce the effects of long-term exposure to direct sunlight.

Notes:

1. The above kit numbers represent order codes that include multiple intensity-bin and color-bin codes. Only one intensity-bin code and one color-bin code will be shipped on each reel. Single intensity-bin, single color-bin codes will not be orderable.
2. Please refer to the "Cree LED Lamp Reliability Test Standards" document \#1 for reliability test conditions.

## NOTES

## Lead Frame Materials

Ag-plated and Lead-free Solder-plated iron.

## RoHS Compliance

The levels of environmentally sensitive, persistent biologically toxic (PBT), persistent organic pollutants (POP), or otherwise restricted materials in this product are below the maximum concentration values (also referred to as the threshold limits) permitted for such substances, or are used in an exempted application, in accordance with EU Directive 2002/95/ EC on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), as amended through April 21, 2006.

## Vision Advisory Claim

Users should be cautioned not to stare at the light of this LED product. The bright light can damage the eye.

## KIT NUMBER SYSTEM

All dimensions in mm. Cree LED lamps are tested and sorted into performance bins. A bin is specified by ranges of color, forward voltage, and brightness. Sorted LEDs are packaged for shipping in various convenient options. Please refer to the "Cree LED Lamp Packaging Standard" document for more information about shipping and packaging options.

Cree LEDs are sold by order codes in combinations of bins called kits. Order codes are configured in the following manner:

## REFLOW SOLDERING

The LED soldering specification is shown below(suitable for both leaded solder \& lead-free solder):

| Manual Soldering | Solder Dipping |  |  |
| :--- | :--- | :--- | :--- |
| Soldering iron | 35 W max | Preheat | $110^{\circ} \mathrm{C}$ max |
| Temperature | $300^{\circ} \mathrm{C}$ max | Preheat time | 60 seconds max |
| Soldering time | 3 seconds max | Solder-bath temperature | $260^{\circ} \mathrm{C}$ Max |
| Position | Not less than 3 mm from the base of the package. | Position | 5 seconds max |

- Manual soldering onto the PCB is not recommended because soldering time is uncontrollable.
- The recommended wave soldering is as below:

- Do not apply any stress to the LED package, particularly when heated.
- Only bottom preheat is suggested \& should not preheat on top in order to reduce thermal stress experienced by the LEDs.
- The LEDs must not be re used once they have been extracted from PCB.
- After soldering the LEDs, the package should be protected from mechanical shock or vibration until the LEDs have reached $40{ }^{\circ} \mathrm{C}$ or below.
- Precautions must be taken as mechanical stress on the LEDs may be caused by PCB warpage or from the clinching and cutting of the LED leads.
- When it is necessary to clam the LEDs during soldering, it is important to ensure no mechanical stress is exerted on the LEDs.
- Cut the LED lead at normal room temperature. Lead cutting at high temperature may cause failure of the LEDs.

Refer to "http://www.cree.com/led-components/media/documents/sh-HB.pdf" for soldering \& handling details.

## PACKAGING

## Features:

- The LEDs are packed in cardboard boxes after packaging in normal or anti-electrostatic bags.
- Cardboard boxes will be used to protect the LEDs from mechanical shock during transportation.
- The boxes are not water resistant, and they must be kept away from water and moisture.
- The Bulk Pack types of packaging.
