Approval IMQ:

Approval UL: Approval CCC:

Approval EZU:

EG610 (FR-FX-FK series) EG609 (FM-FZ series) E131787 2007010305230013 (FR-FX-FK series) 2007010305229998 (FM-FZ series) 1010151

## **Technical data**

#### Housing

Housing type FR, FX and FK made of glass-reinforced polymer, self-extinguishing, shock-proof thermoplastic resin Housing type FM and FZ made of metal, coated with baked epoxy powder. FR, FM and FK series one conduit entry FX and FZ series two conduit entries Protection degree: IP67 according to EN 60529

### General data

Safety parameters:	see page 6/32
Ambient temperature:	from -25°C to +80°C
Version for operation in ambient temperature from -40°C to +80°	C on request
Max operating frequency:	3600 operations cycles <sup>1</sup> /hour
Mechanical endurance:	1 million of operations cycles <sup>1</sup>
Max actuating speed:	180°/s
Min. actuating speed:	2°/s
Driving torque for installation:	see pages 6/1-6/10
<ol> <li>One operation cycle means two movements, one to close an 5-1 standard</li> </ol>	d one to open contacts, as foreseen by EN 60947-

#### Cross section of the conductors (flexible copper wire) Contact blocks 20, 21, 22, 33, 34: min. 1

Contact blocks 20, 21, 22, 33, 34:	min.	1 x 0,34 mm <sup>2</sup>	(1 x AWG 22)
	max.	2 x 1,5 mm <sup>2</sup>	(2 x AWG 16)
Contact blocks 5, 7, 9, 18:	min.	1 x 0,5 mm <sup>2</sup>	(1 x AWG 20)
	max.	2 x 2,5 mm <sup>2</sup>	(2 x AWG 14)

### In conformity with standards:

IEC 60947-5-1, EN 60947-5-1, IEC 60204-1, EN 60204-1, EN 1088, EN ISO 12100-1, EN ISO 12100-2, IEC 60529, EN 60529, NFC 63-140, VDE 0660-200, VDE 0113, CENELEC EN 50013.

Approvals:

IEC 60947-5-1, UL 508, GB14048.5-2001

### In conformity with requirements requested by:

Low Voltage Directive 2006/95/EC, Machinery Directive 2006/42/EC and Electromagnetic Compatibility 2004/108/EC. **Positive contact opening in conformity with standards:** IEC 60947-5-1, EN 60947-5-1, VDE 0660-206.

# A If not expressly indicated in this chapter, for the right installation and the correct utilization of all articles see requirements indicated from page 6/1 to page 6/10.

## Description

These safety switches have been designed to control gates or guards that protect the hazardous parts of machines. They are very sensitive and positively open the contact block after few rotation degrees, sending the stop signal immediately. The head adjustable in 90° steps allows their installation in four different positions. Available with polymer or metal housing, with protection degree IP67. Its special shape allows to use this type of switches also in those areas where dust and dirt could block working of normal safety switches with separate actuator.

Data type approved by IMQ, CCC and EZU	Data type approved by UL	4
Rated insulation voltage (Ui): 500 Vac 400 Vac for contact blocks 20, 21, 22, 33, 34	Utilization categories Q300 (69 VA, 125-250 Vdc A600 (720 VA, 120-600 Vac	;)
Thermal current (Ith): 10 A Protection against short circuits: fuse 10 A 500 V type aM Protection degree: IP67	Data of the housing type 1, 4X "indoor use only For all contact blocks use 60 or 75 °C copper (C No. 12-14 AWG. Terminal tightening torque of 71	u) conductor and wire size 40
VIV terminals (screw clamps) Pollution degree 3 Jtilization category: AC15 Operation voltage (Ue): 400 Vac (50 Hz)	In conformity with standard: UL 508	41
Operation current (Ie): 3 A Forms of the contact element: Zb, Y+Y, Y+Y+X, Y+Y+Y, Y+X+X Positive opening of contacts on contact block 5, 7, 9, 18, 20, 21, 22, 33, 34	Please contact our technical service for the list of ap	pproved products.
In conformity with standards: EN 60947-1, EN 60947-5-1 and subsequent modifications and completions, fundamental requirements of the Low Voltage Directive 2006/95/CE and subsequent modifications and completions.		6

Please contact our technical service for the list of approved products.

## Dimensional drawings

### How to read travel diagrams

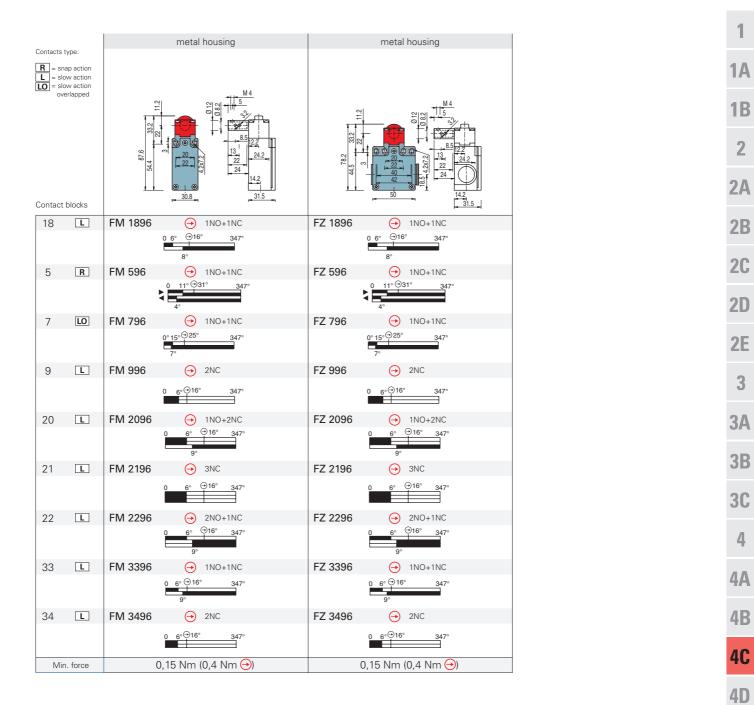

### **IMPORTANT:**

All measures in the diagrams are in degrees

In safety applications it is necessary to activate the switch at least up to the positive opening point indicated in the diagrams with the symbol  $\bigcirc$ . Operate the switch at least with the positive opening force, indicated between brackets, below each article, next the value of minimum force.

All measures in the drawings are in mm page 4/47

## **Regulation of intervention point**

Temporary shaft locking (dowel provided).

Verify the operating point according to EN 294, adjust the operating point again if necessary

Switch locking (pin provided).
